Overall software development
2022 - 2025

- **AP DEGREE**
UCL Erhvervsakademi
IT Technology
Focus in embedded system development
2021 - 2022

TECH

- Java/C#/Python
- Spring/.NET
- HTML/CSS/JS/TS
- Tailwind & React
- MySQL & PostgreSQL
- Scrum/UML/ Unified Process
- Learning C, Git, Linux(WSL)

EXPERIENCE

WEBSITE CREATION   Riga Cup   2022/2023

- Created a website, which contained tricky backend and nice frontend. First variation was made in PHP. Then transformed to Typescript, React, Next, TailwindCss and Firebase. Find it in my website portfolio.

SEMESTER PROJECTS   VIA   2022 - 2023

- In Semester **I** project I took part in Hotel Website creation, which contained Java backend for hotel reservations. Html/CSS/JS/Bootstrap for website part.
- Semester **II** project was a full on Java and JavaFX application, Client-Server system which contained implementation of SOLID principles, multiple design patterns, made SCRUM Methodology.
- Semester **III** project contained C#/.NET and Java/Spring server-to-server application. Kanban development methodology was used.
- Semester **IV** project is IoT focused, with multiple teams - IoT(C), Cloud(Hosting) and Frontend(React App).
- In **UCL** semester project I made IoT system that was measuring temperature and displaying temperature on small display using Raspberry Pico and Python.

INTERESTS

- Football
- Padel
- Travelling
